REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: The prior art does not teach or fairly suggest methods of forming preforms as claimed wherein laser energy is directed between an outer glass tube and an inner glass rod or tube as claimed. Likewise, the prior art does not teach apparatus for forming preforms as claimed having a reflective conduit and movable support member to direct a laser beam into the cylindrical gap between two concentric glass tubes as claimed. It would not have been obvious to modify or combine the prior art to arrive at the claimed inventions.

4. The Powell et al publication provided in the recent Information Disclosure Statement does not appear to show that the present claims lack enablement. The publication is furthermore not prior art.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sean E Vincent whose telephone number is (571) 272-1194. The examiner can normally be reached on M - F (8:30 - 6:00).
